AI ATS Resume Analysis Report

Generated on 01 July 2026 | 12:56 PM

ATS Score	44%
Grade	F
Recruiter Verdict	Needs Improvement

Matched Skills

- ✓ CSS
- ✓ Docker
- ✓ Git
- ✓ GitHub
- ✓ HTML
- ✓ JavaScript
- ✓ NumPy
- ✓ Pandas
- ✓ Python
- ✓ RAG
- ✓ React
- ✓ SQL

Missing Skills

- ✗ AWS
- ✗ Algorithms
- ✗ Data Structures
- ✗ Deep Learning
- ✗ Flask
- ✗ Generative AI
- ✗ Kubernetes
- ✗ LangChain
- ✗ Linux

- ✗ Machine Learning
- ✗ MongoDB
- ✗ Object-Oriented Programming
- ✗ PyTorch
- ✗ REST API
- ✗ TensorFlow

Strengths

- CSS and React skills showcase expertise in building visually appealing and user-friendly web applications.
- Python skills demonstrate proficiency in data analysis, machine learning, and automation, making you a valuable asset for data-driven projects.
- GitHub presence highlights your ability to collaborate effectively with team members and maintain a clean, organized codebase.

Weaknesses

- Lack of AWS experience may make it difficult to work with cloud-based infrastructure or deploy applications on Amazon's platform.
- Insufficient exposure to machine learning libraries like PyTorch, TensorFlow, or Keras may hinder your ability to contribute to AI-driven projects.
- Inconsistent use of version control systems like Git and GitHub may lead to errors, inconsistencies, or difficulties in tracking code changes.

AI Suggestions

- Consider taking courses or attending workshops on AWS to improve your cloud computing skills and expand your career prospects.
- Expand your machine learning repertoire by exploring libraries like PyTorch, TensorFlow, or Keras to stay competitive in the field.
- Develop a consistent workflow for using Git and GitHub by creating a personal project or contributing to open-source repositories.
- Practice building RESTful APIs with Flask or Django to improve your understanding of web development principles.
- Participate in online communities like Reddit's r/learnpython, r/webdev, or Stack Overflow to stay updated on the latest trends and best practices.
